

KARL FRANZINE A. OMPAD

Construction Virtual Assistant | Quantity Take-offs | Cost Estimating | Project Scheduling

Registered Civil Engineer | Registered Master Plumber

Lapu-Lapu City, Philippines • ompadkarl@gmail.com • 0927 223 7110

Remote / WFH • Flexible hours for US / AU / UK client overlap

PROFILE

Licensed Civil Engineer and Registered Master Plumber with 2+ years of construction experience supporting contractors with quantity take-offs, cost estimating, schedule tracking, and project documentation on residential and commercial works. Works as a dependable remote construction virtual assistant: takes drawings and scope in, and returns organized take-offs, estimate summaries, progress reports, and billing reviews that project managers and estimators can use right away. Dual licensure allows accurate scoping of both architectural and MEP-adjacent quantities.

CORE SKILLS

- **Quantity Take-offs:** architectural, sitework, and MEP-adjacent measurement from plans and specifications
- **Cost Estimating:** material estimating, estimate summaries, cost tracking, and progress billing / claims evaluation
- **Project Scheduling & Tracking:** planned-vs-actual progress monitoring, daily and weekly accomplishment reports, manpower and delivery tracking
- **Construction Virtual Assistance:** project documentation, coordination, reporting, and clear written and Zoom communication
- **Drawings & Specs:** reading and interpreting construction drawings, specifications, and schedules of finishes

SOFTWARE

- **Bluebeam Revu:** measurement and calibration, custom take-off tools, markup / redlining
- **PlanSwift:** digital take-offs and quantity reporting
- **AutoCAD & Revit:** drawing interpretation and coordination
- **Microsoft 365 & Google Workspace:** estimate summaries, tracking sheets, schedules, and reporting
- **Zoom:** remote collaboration with distributed teams

PROFESSIONAL EXPERIENCE

Site Engineer

May 2024 – June 2026

Vineyard Construction Inc., Cebu City, Philippines

- Prepared quantity take-offs and detailed material estimates from architectural drawings for masonry, tiling, ceiling, drywall, and painting works
- Reviewed contractor progress billings and evaluated claims against approved quantities and specifications
- Monitored work progress against the project schedule and prepared daily and weekly accomplishment reports for client and management review
- Maintained project documentation and coordinated inspections to keep works aligned with approved scope
- Verified work against approved plans and specifications, checking estimate accuracy against constructed conditions

On-the-Job Trainee

Aug 2023 – Nov 2023

Venray Construction Corp., Cebu City, Philippines

- Tracked daily balance of works against the project schedule and monitored delivered fixtures
- Recorded daily manpower allocation and generated turnover punch lists

LICENSES

- Registered Civil Engineer — CE Board Exam Passer, April 2024 (Average: 86.60)
